

Test Plan for Vendors - Proposal XML

Documents (to be reviewed by system vendors)

Functional Requirements proposal_xml_tv.doc	proposal_xml_radio.doc
Schema Documents README-file_descriptions-0.3.0.5R.txt aaaaMessageHeader-0.2.0.1.xsd spotTVCableProposal-0.3.0.5R.xsd spotTV-2.4.1.0.xsd TVBGeneralTypes-0.0.1.xsd	
Sample Proposals SampleSpotCableProposal-0.3.0.5R.txt SampleSpotTVProposal-0.3.0.5R.xml SampleSpotRadioProposal-0.3.0.5R.xml	

Business Rules

- All data contained in the proposal can be displayed in the prebuy system.
- Proposal XML must be validated against the schema when the user displays the file in a prebuy system.
- The prebuy system must support schema version 0.3.0.5, as well as any subsequent versions.
- Vendor will indicate if any scenarios cannot be supported in their system.

Proposal XML Data and Rules

The table below summarizes information from the functional requirements (proposal_xml_tv.doc).

Data	Rules	Required?
Rates	A proposal line must have a rate. A proposal line can have multiple rates. Zero dollars (0) is a valid rate.	Yes
Comments	Types of comments: line, station, avail list.	No
Orbits	A proposal line can have multiple days/times/programs.	No
Hiatus weeks	Proposal lines have "available periods." Hiatus weeks are excluded from the XML based on these available periods.	No
Dates	Standard and non-standard broadcast weeks are supported.	Yes
Spots	All of the following are supported: • Spots per week • Spots per day within a rotation • Total spots • No spots	No
Demographics	Seller can provide up to 20 categories. Rating precision can be one- or two-decimal. Demo data can vary by period.	No
Additional sales information	Seller can provide additional sales information as read-only HTML data. This data will not be transferred to the prebuy system. Examples include complete avails, station information, and reach/frequency data.	No
Multiple avail lists	The proposal may contain more than one avail list.	No (Only one avail list is required.)
Versioning	The seller can send revised proposals. Revisions must contain all proposal lines.	Yes
Packages	The XML can include a package reference.	No
Sales contact information	Seller can send contact information, including email, phone, fax and pager.	No

Known Issues

MetroA and MetroB ratings

Currently the schema does not support these demo categories.

Test Plan

Please submit a test file for each scenario described below. Once the test file is received, DDS will validate the data and send a report back to you with results.

If a particular scenario does not apply to your system, please indicate to DDS.

1. Proposal contains no spots.

Station	One or more stations
Proposal dates	Quarterly with Monday start date and Sunday end date
Rates	One rate per proposal line, available for all weeks
Spots	No spots
Lengths	30 seconds only
Comments	Proposal lines contain comments
Demos	Two demos are present (one rating and one impression category)
Orbits	No orbits are present
Package indicator	No package indicator
Avail lists	One avail list
Additional Sales Info	No additional sales info is attached

2. Proposal contains weekly spots and hiatus weeks.

Station	One or more stations
Proposal dates	Quarterly with Monday start date and Sunday end date
Rates	Multiple rates per proposal line; include hiatus weeks
Spots	Lines have different number of spots per week
Lengths	30 seconds only
Comments	Proposal lines contain comments Avail list contains comments
Demos	Four demos are present
Orbits	No orbits are present
Package indicator	No package indicator
Avail lists	One avail list
Additional Sales Info	No additional sales info is attached

3. Proposal contains weekly spots, hiatus weeks, and more than one avail list.

Station	One or more stations
Proposal dates	Quarterly with Monday start date and Sunday end date
Rates	Multiple rates per proposal line; include hiatus weeks
Spots	Lines have spots per week
Lengths	30 seconds only
Comments	Proposal lines contain comments
Demos	Four demos are present
Orbits	No orbits are present
Package indicator	No package indicator
Avail lists	Proposal contains at least two avail lists
Additional Sales Info	No additional sales info is attached

4. Demo data varies by period.

Station	One or more stations
Proposal dates	Quarterly with Monday start date and Sunday end date
Rates	Multiple rates per proposal line; include hiatus weeks
Spots	Lines have spots per week per period
Lengths	30 seconds only
Comments	Proposal lines contain comments
Demos	One demo category; include lines with different demo values per period
Orbits	No orbits are present
Package indicator	No package indicator
Avail lists	Proposal contains at least two avail lists
Additional Sales Info	No additional sales info is attached

5. Proposal lines have total spots across periods.

Station	One or more stations
Proposal dates	Quarterly with Monday start date and Sunday end date
Rates	Multiple rates per proposal line; include hiatus weeks
Spots	Each line has total spots across periods
Lengths	30 seconds only
Comments	Proposal lines contain comments
Demos	One demo category; include lines with different demo values per period.
Orbits	No orbits are present
Package indicator	No package indicator
Avail lists	Proposal contains at least two avail lists
Additional Sales Info	No additional sales info is attached

6. Additional Sales data is included as html.

Station	One or more stations
Proposal dates	Quarterly with Monday start date and Sunday end date
Rates	Multiple rates per proposal line; include hiatus weeks
Spots	Lines have spots per week
Lengths	30 seconds only
Comments	Proposal lines contain comments
Demos	Four demos are present
Orbits	No orbits are present
Package indicator	No package indicator
Avail lists	Proposal contains at least two avail lists
Additional Sales Info	Each avail list has HTML data linked to it
	Proposal has HTML data linked to it

7. Orbit data is present and station comment exists.

Station	One or more stations
Proposal dates	Quarterly with Monday start date and Sunday end date
Rates	One rate per proposal line
Spots	Lines have spots per week
Lengths	30 seconds only
Comments	Station comment exists
Demos	Two demos are present
Orbits	At least one proposal line contains orbit details
Package indicator	No package indicator
Avail lists	One avail list
Additional Sales Info	No additional sales info is attached

8. Non-standard weeks.

Station	One or more stations
Proposal dates	Quarterly with a non-Monday start DAY for each week Ex: Spots run Wed-Tuesday
Rates	Multiple rates per proposal line; include hiatus weeks.
Spots	Lines have spots per week
Lengths	30 seconds only
Comments	None
Demos	Four demos are present
Orbits	No orbits are present
Package indicator	No package indicator
Avail lists	One avail list
Additional Sales Info	No additional sales info is attached

9. Rotations include spots per day.

Station	One or more stations
Proposal dates	Quarterly with Monday start date and Sunday end date.
Rates	Multiple rates per proposal line; include hiatus weeks.
Spots	Proposal lines have 'spots per day' Rotation is M-F Seller has indicated that spots will run Mon, Wed, and Friday
Lengths	30 seconds only
Comments	Proposal lines contain comments
Demos	Four demos are present
Orbits	No orbits are present
Package indicator	No package indicator
Avail lists	Proposal contains at least two avail lists
Additional Sales Info	No additional sales info is attached

10. Proposal includes multiple spot lengths.

Station	One or more stations.
Proposal dates	Quarterly with Monday start date and Sunday end date
Rates	One rate per line
Spots	Lines have spots per week
Lengths	30 seconds and 15 seconds
Comments	Proposal lines contain comments
Demos	Four demos are present
Orbits	No orbits are present
Package indicator	No package indicator
Avail lists	Proposal contains at least two avail lists
Additional Sales Info	No additional sales info is attached

11. Seller sends a revision.

Seller will send an original proposal along with a revision for the same proposal.
Revision details include a change in rate and a cancelled line.
